

# MAND TRAINING

The foundation of increasing communication!

MAND: TO ASK FOR WANTS & NEEDS

## Mand Training:

Creating opportunities for your child to ask for things, prompting them to communicate and reinforcing their behavior to allow language to increase over time.

### Opportunities

Have your child ask for everything! Place items out of reach so they have to ask. Create opportunities to mand!

### Model

Prompt your child to mand for items by modeling what they should say and have them repeat it after you.

### Praise

As soon as your child mands appropriately, give them what they were asking for! Reinforce their behavior!
